KAZAKH INDUSTRY ONE PERCENT OVER YEAR PLAN

The Statistics Administration, Kazakh SSR, reports that industry in the republic fulfilled the 1949 gross-production plan 101 percent and that gross production in 1949 was 107 percent of 1948. Individual ministries and organizations met the plan as follows:

Percent

Ministry of Metallurgical Industry	101
Ministry of Coal Industry	96
Ministry of Petroleum Industry	102
Ministry of Electric Power Plants	100
Ministry of Chemical Industry	105
Ministry of Electrical Industry	104
Ministry of Communications Equipment Industry	97
Ministry of Heavy-Machine Building	103
Ministry of Automobile and Tractor Industry	106
Ministry of Machine-Tool Building	90
Ministry of Machine and Instrument Building	82
Ministry of Agricultural-Machine Building	91
Ministry of Agricultural Procurement	102
Ministry of Construction Materials Industry (as a whole)	94
Including:	
Union enterprises	104
Republic enterprises	90
Ministry of Timber and Paper Industry	76
Ministry of Light Industry (as a whole)	109
Including:	
Union enterprises	115
Republic enterprises	101
Ministry of Fish Industry (as a whole)	104
Including:	
Union enterprises	109
Republic enterprises	89

Kazakh Consumers' Cooperatives	79

The republic's industry fulfilled the fourth-quarter gross-production plan 104 percent and the December plan 105 percent.

The following ministries, while fulfilling the gross-production plan, failed to meet the 1949 plan for quantitative production of the items indicated: Ministry of Metallurgical Industry -- mining of polymetallic ores, output of refined lead, lead and zinc concentrates; Ministry of Heavy-Machine Building -- blast-furnace equipment; Ministry of Light Industry -- woolen fabric, hard leather goods, and leather and felt footwear; Union enterprises of Ministry of Meat and Dairy Industry -- meat and butter; Ministry of Food Industry -- nonalcoholic beverages and cigarettes; Ministry of Local Industry -- 33 out of 40 planned items, including brick, lime, nails, galvanized and aluminum pots and pans, hosiery, felt and leather footwear; Kazakh Union of Invalids' Cooperatives -- 20 out of 27 planned items, including nails, leather footwear, soap, cotton fabric, hosiery, and bakery products; Industrial Cooperatives -- 34 out of 42 planned items.

The 1949 plan for quantitative production of chief industrial goods was fulfilled as follows:

	1949 Plan in %	1949 In % of 1948
Coal	101	108
Petroleum	100	114
Gasoline	104	102
Steel	103	167

The Karaganda Railroad System fulfilled the 1949 plan for average daily car-loading 100 percent, including 101 percent for loading coal. The Turksib Railroad System fulfilled the 1949 carloading plan 97 percent, including 72 percent for grain, 121 percent for nonferrous metal ores, and 92 percent for sugar. The Karaganda Railroad System fulfilled the 1949 plan for average daily car unloading 110 percent and the Turksib 103 percent. The norm for freight-car turnaround was not met by either the Karaganda or the Turksib systems.

The River Fleet of the Administration for Utilization of Small Rivers for Transport, Council of Ministers Kazakh SSR, fulfilled 79 percent of the 1949 plan for freight hauling during the 1949 navigation season, including 78 percent by the Ural River Ship Line and 81 percent by the Balkhash-Ili River Ship Line.

The republic as a whole fulfilled only 84 percent of the 1949 capital-construction plan, including 83 percent for capital construction in Union projects and 89 percent in republic projects. During 1949, the volume of capital construction throughout the republic was 134 percent of 1948, including 135 percent for Union projects and 128 percent for republic projects. Fulfillment of the 1949 plan and the 1949 volume of capital construction in percent of 1948 were as follows:

50X1-HUM

The 1949 plan for retail trade turnover was fulfilled 97 percent, including 91 percent by the Ministry of Trade, 96 percent by the Kazakh Consumers' Union, and 104 percent by ORSs and food-supply organizations. Sale of the following products showed a considerable rise in 1949 as compared with 1948: animal fats, bread, confectionery, sugar, cotton fabric, woolen fabric, silk fabric, leather footwear, sewn articles, and other consumers' goods. The volume of agricultural products sold in kolkhoz markets in 1949 increased substantially over 1948, with corresponding price reductions throughout the year, particularly on animal fats, meat, milk, potatoes, and vegetables.

The number of workers and employees in the republic's economy showed a marked increase over 1948. More than 30,000 young skilled workers completed training in FZO and trade schools during 1949. Higher and secondary special training institutions graduated nearly 12,000 specialists this year.

There was considerable improvement during 1949 in the operation of the city services. Year plans for water supply by city communal water mains and for transport of passengers by city transport facilities were considerably exceeded.

The area sown in the 1949 harvest increased 11 percent over the 1948 sown area, including 10 percent for grain crops. In 1949, the spring sowing campaign was completed in a shorter time and with higher quality work than in 1948 on kolkhozes and sovkhoses. The plan for sowing spring grains was exceeded. Important achievements were gained in expanding the area sown in perennial and annual grasses and feed and ensilage crops. Kolkhozes, sovkhoses, and MTSs completed the 1949 harvest in a shorter time than in 1948, and the plan for delivery of grain to the state was exceeded. Tilling and plowing in preparation for the 1950 harvest was completed earlier this year than in 1948, although there was some lag in working fallow land. Kolkhozes and sovkhoses exceeded the plan for sowing winter crops for the 1950 harvest by 20 percent. MTSs completed more work on kolkhozes than in 1948. The 1949 plan for laying new forest shelter belts on kolkhozes was fulfilled 98 percent.
